

Dispensing Module

Storage Module

NEW!

Convenience that Drives Compliance

Kimberly-Clark's new PPE Dispensing System makes it easy to choose and use the right Personal Protective Equipment. Our unique System places at caregivers' fingertips:

- STERLING* Nitrile and PURPLE NITRILE* Gloves
- CONTROL* Cover Gowns
- Procedure Masks and FLUIDSHIELD* Visor Masks
- KIMCARE ANTIBACTERIAL* All-N-1 Hand Sanitizer

Because it's so convenient and simple to use, the System promotes compliance with the Centers for Disease Control (CDC) infection control practices that help reduce the spread of healthcare-associated infections.

- The ergonomically designed PPE Dispensing System makes quality PPE products readily accessible and displays easy-to-follow icons that encourage hand sanitizing and proper donning techniques.
- Spring-assisted dispensing of Procedure Masks and gloves helps minimize cross-contamination of products caused by reaching inside the box.
- FLUIDSHIELD* Visor Masks are dispensed mask first, so that the visors remain virtually fingerprint-free.
- Exam Gloves are dispensed cuff first, which aids in rapid donning and helps prevent contamination of the remaining gloves in the box.
- Separate Dispensing and Storage modules make the System very versatile. The Dispensing Module can be wall-mounted or connected to the Storage module, which adds mobility and a convenient place to store additional products for rapid refill.

The KIMBERLY-CLARK* PPE Dispensing System is just one of the clinical solutions you can depend on to meet the demands of your fast-paced world.

Whether your needs involve preventing healthcare-associated infections, surgical and digestive solutions, or pain management, with Kimberly-Clark you'll always have one less worry.

Exam gloves dispense cuff first, preventing contamination of the glove surface.

Spring-assisted dispensing minimizes the risk of contamination.

The wheeled storage module provides plenty of extra room for additional supplies.

The unit can be personalized with your facility's name and easy to follow icons promote proper donning techniques.

Commitment to Excellence

If, for any reason, our products do not meet your expectations, please let us know your comments or suggestions for improvement. Your input will result in a concerted effort on our part to meet your requirements. Our goal is to provide quality products that completely meet your needs time after time.
